-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3634

1. The abstract of the disclosure is objected to because of the inclusion of legal phraseology "means". Correction is required. See MPEP § 608.01(b).

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

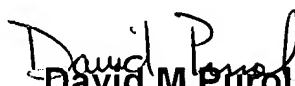

Claims 1-4,6-9,11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ojima et al (U.S. Patent No. 5,201,810) in view of Jolivet (European Patent No. 1,099,579). Ojima et al disclose a window shade 12, a winding shaft 11, a guide 14, a tension rod 13, a flexible elongated actuating element 18a,b, and a drive 20. While Ojima et al do not disclose the window shade as being supported under a covering with a cover pivotally supported thereon, Jolivet discloses a window shade which employs the use of a pivotally mounted cover 29,31,33, wherein, to incorporate this teaching into the window shade of Ojima et al for its explicit purpose of storing the window shade would have been obvious to one of ordinary skill in the art.

3. Claims 5 and 10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3634

4. The following prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Torres et al, Brunnert et al, Schlecht et al '307, '929, '599.

5. Any inquiry concerning this communication should be directed to David M. Purol at telephone number (571) 272-6833.
